SPECIAL ELECTION TO-DAY.

A special election is to be held in this city, *to-day*, to fill the vacancy in the office of City Treasurer, created by the recent decision of the Supreme Court. There are two candidates in the field, JOHN H. TESCH, who was the Republican nominee at the Charter Election in April and who, after receiving a majority of the votes cast, was *ousted* by the Supreme Court on a technicality, and MORITZ VON BAUMBACH, the late Treasurer, who failed to obtain a re-nomination from his own party at the regular election, but has, in some way, secured the orthodox brand now. There are good reasons why Mr. TESCH should be elected:

1st. He was *fairly chosen* in April, and the People, regardless of party, should stand by him *now*.

2nd. Mr. VON BAUMBACH has been in the office, as Deputy, or Principal, for several years past, and the public interests demand a change.

3rd. Mr. TESCH is conceded, on all hands, to be honest and capable; a good business man and an excellent citizen.

4th. "A new broom sweeps clean," and the City Treasury needs sweeping.

TURN OUT, then, fellow-citizens, in full force *to-day* and elect JOHN H. TESCH, as your City Treasurer! *A full and fair vote* is all that is required.

HEAVY FAILURE IN OZAUKEE COUNTY!—A Grand Douglas Ratification Meeting was announced to be held in Ozaukee, last week. All the world was invited to attend, and a regiment of "distinguished speakers" was announced to address the meeting. Ozaukee county having been heretofore one of the Democratic strongholds in our state, a large gathering was looked for. The day came, but *nothing else*. No people, no speakers, no meeting! The *finale* is thus briefly chronicled in the Ozaukee *Advertiser and Democrat:*

RATIFICATION MEETING ADJOURNED.—The ratification meeting which was to be held at this place on Monday last, has been adjourned in consequence of some of the most prominent speakers who were expected to address the meeting being unable to attend on account of other engagements of a similar nature; the meeting however, organized, by appointing Col. Horneffer, as Chairman, and John R. Bohan, as Secretary.

On motion, Messrs. J. C. Downs, W. A. Pors and A. Zimmerman were appointed an executive committee, to designate time and place for future meetings.

Ink Stains.

In a visit to Marseilles, a little incident within my observation, which may prove serviceable to many of your large class of readers. In the *Hotel des Empereurs*, where I was residing, an ink-stand was accidentally overturned upon a beautiful table-spread; those present, thought that the cloth was ruined. A servant being called in to remove the article from the table, all were surprised when he assured us that no harm had been done, and more surprised still, at witnessing the successful means resorted to for removing the ink stains. The servant sprinkled over the cloth a quantity of pepper and salt, and rubbed them over its surface. The mixture soon absorbed every portion of the ink, and the table-spread was in as good a condition as before the accident. The spread was of woolen fabric. I have never had an occasion for testing the merits of this simple mixture when applied in other cloths, but it certainly would not be attended with any bad result. A. READER.

YOUR EXCELLENCY, CAPTAIN DUPONT:—With respect to your reply declining, as an officer of the Government, to accept a sum of twenty thousand dollars, to be distributed among the police forces of the cities of Washington, Baltimore, Philadelphia, and New York, in proportion to the duration of our stay in those cities, and the numerical force, we now beg leave to ask you, though fully appreciating your reasons for non-acceptance, that as a personal friend you be pleased in our name to request Mr. Belmont, the son-in-law of the late Commodore Perry, to oblige us by distributing the same as above stated, and by explaining that it is our wish that the sum be applied in consonance with your usages in acknowledgement of the efficiency of those police officers in contributing so much to our comfort.

Respectfully submitted,

GREAT DEMONSTRATION IN BURLINGTON.

Eight Thousand Ratify the Nominations of Lincoln and Hamlin, and Potter.

The Republican Mass Meeting in this village last Saturday, was a grand affair. The 10 o'clock train on the R & M. R. R. from the west brought in large delegations from various points on the line of the road, among whom was Gov. Randall, Lieut. Gov. Noble and Senator Doolittle. Also a large delegation from Elkhorn, accompanied by the Elkhorn brass band. The Burlington Rifle Company, and the Burlington division of the Lincoln and Hamlin Wide-Awakes, forty-seven in number, were at the depot and received the speakers and other guests in true military style. They were then escorted up to town by the Rifle Company, the Wide Awakes remaining at the depot to escort the Racine delegation that was expected on the 11:28 train from the east.

At last the train came thundering in—the big cannon on the rear car under command of Major Throupe, of Racine, belched forth a salute, and the crowd poured out amid the hurrahs and shouts of those in waiting to receive them. We had no means of ascertaining the number from Racine, but the train was a long one and every car was crammed full. The Racine Wide-Awakes numbering one hundred, accompanied by the Racine Cornet and Bugle Bands, were among the delegation, and made a fine appearance.

The Racine Wide-Awakes were then formed in line and escorted to town by the Burlington Wide-Awakes. The Rochester and Waterford Delegations arrived at the depot at about the same time of the arrival of the Racine train, and falling into line, made a very long procession.

The Rochester delegation, under the command of Marshals Everit and North, numbering 45 wagons, was accompanied by the Honey Creek Martial Band. One wagon contained 34 young ladies with banners, on which were inscribed the names of the different States, including Kansas, in red letters and black border. The young lady who carried the Kansas banner was also dressed in mourning.

Besides the small banners representing the States, they had two large banners. On one was inscribed, "Rochester, Wis." On the other, "Lincoln, Hamlin and Potter—our representatives."

The Rochester delegation estimated their number at about one thousand. Four of the wagons contained over thirty each.

The Waterford delegation, under command of Marshals McLeish and Chapman, numbered about sixty teams, and contained at least five hundred persons. They were accompanied by the Waterford Martial Band; also the Waterford cannon.

Upon arriving in the village, the Burlington Rifles again placed themselves at the head of the procession, which was then joined by various delegations from Wheatland, Raymond, Spring Prairie and other towns, increasing its length to one and one-fourth miles. A larger or more imposing procession, we venture to say was never before marshalled in Racine County. Besides the Bands, the Military, the Wide-Awakes, and a large number of others on foot, there were 320 teams in the procession.

The meeting was organized by the election of Judge WYMAN SPOONER, of Elkhorn, as President of the Day, and a number of Vice-Presidents and Secretaries. After a recess for dinner, the multitude re-assembled at 2 o'clock, and adopted, with entire unanimity, the following resolutions:

Resolved, That we here re-assert the purposes and principles of our Republican organization as declared by the Chicago Convention. That we here re-echo the names of Lincoln and Hamlin, presented to us by the same body, as men worthy the confidence of a great nation and the suffrages of a free people. We will stand by these principles and bear their champions to victory.

Resolved, That we cheerfully and heartily ratify the re-nomination of our efficient and brave representative, John F. Potter. He has defended free speech—he has represented our interest—the people will sustain him, and at the election in November next will bear his honored name in triumph over all opposition.

The gathering was addressed by Senator DOOLITTLE, Governor RANDALL, Lt.-Gov. NOBLE, and other speakers. The Burlington *Gazette* extra, from which we gather the above, says:

"The torch-light procession in the evening was one of the most brilliant and imposing sights that we have ever witnessed.—At eight o'clock the Burlington and Racine Wide-Awakes assembled, and after lighting their torches, were escorted around town by the Burlington Rifles, and afterwards to the depot. When marching in single file, open order, the torches extended full half a mile."

RACINE COUNTY is evidently "Wide-Awake" and will give the largest Republican majority in November that we have yet obtained there.

New York Matters.

NEW YORK, July 17 3 P. M.

The correspondent of the World, at Washington, says that Senator Clingman has written a letter declining to support Douglas.

The new French Minister's first official communication to the State Department was the announcement that France and England had declared war against China; giving assurance that neutral goods, except contraband, would be protected.

Nearly 6,000 persons visited the Great Eastern yesterday.

John Morrissey publishes a challenge to Heenen, offering to fight him in four months for from $10 to $10,000 a side.

The Chicago Zouaves visit the Great Eastern on Wednesday, by invitation, and will perform drill movements on her deck.

Postmaster General Holt gave notice yesterday that all avenues, streets, lanes, &c., in New York, are post roads. All private letter carriers are ordered to be suppressed after August 1st.

Thirty three dwelling houses were burned yesterday, in Washington street, occupied by forty-three families. Loss $27,000.

The meeting last evening, in Union Square, of Fillmore and conservative men, who are in favor of Lincoln and Hamlin, was very large and enthusiastic. Ex-Judge William Mitchell presided. Resolutions endorsing Lincoln and Hamlin were passed unanimously.

The English and French War with China.

WASHINGTON, July 17—3 P. M.

A copy of the British order in council, relative to the war against China, though dated early in March, has just been officially communicated to the State Department.

A notice to the same effect has also been received from the French Government, from which it appears that Victoria and Napoleon intend and desire to act during the hostilities, in strict conformity with the delegation of the European Congress at Paris, April, 1856, respecting maritime rights.

They undertake to extend the declaration that the flag of a neutral power shall cover the enemies' goods, with the exception of contraband of war, to all powers which may be neutral in the hostilities.

Suicide of a Murderer.

LA CROSSE, July 17—3 P. M.

Jacob Reider, the German who murdered his mother-in-law and sister-in-law, on the 10th inst., at Brownsville, Minn., shot himself in his own house yesterday afternoon. He had been secreted within a few miles of the place since committing the murder. He was asked by the crowd outside the house, who had tracked him there, if he would surrender himself to the people. The reply was the discharge of a gun. Persons on rushing in, found him in the last agonies of death.

Breckinridge Ratification Meeting.

FAYETTEVILLE, Ark., July 14.

An enthusiastic ratification meeting was held here to-day, to endorse the nomination of Breckinridge and Lane. Hon G. W. Taylor, Elector, addressed the meeting, advocating the claims of the South with great zeal. Senator Latham arrived at four o'clock and was introduced to the meeting; and delivered a very effective speech in favor of Breckinridge and Lane.

Breckinridge at Home.

LOUISVILLE, July 14.

The largest political meeting ever held here, took place this evening, to ratify Breckinridge's nomination. Mr. Preston, Minister to Spain, Senator Powell, and others, addressed the meeting.

Democratic Nomination.

At the First Congressional District Democratic Convention, held at Des Moines, Iowa, 11th inst., Hon. C. C. Cole, of Des Moines City, was nominated for Congress.

PHILADELPHIA, July 17—3 P. M.

The race between Flora and Geo. M. Patchen, advertised on Thursday, at the Point Breeze Park track, will not take place. A $1,200 purse was raised for the winning horse; but the owner of Patchen refuses run unless he receives $1,000, win or lose.

Tax-Payers Look to the Treasury!—Let us have a Change.

We have no desire to say anything derogatory to the good standing of Mr. VON BAUMBACH, who, so far as we know, is a very clever and accomplished gentleman. But he cannot be ignorant of the fact that there is a very general impression, particularly amongst his own countrymen, that he is directly or indirectly implicated in some of the numerous official defalcations that have occurred during the time he has been in the Treasurer's office; and that he is now seeking a re-election to avoid the investigation which his official doings would assuredly undergo at the hands of Mr. TESCH. Under these circumstances, we had expected to see Mr. VON BAUMBACH retire gracefully from office, and thus silence the rumors afloat with regard to his complicity in SCHWARTING's delinquencies; but instead of that, we are credibly informed that he has been working like a Trojan, since DOUSMAN's defeat, to secure the office for himself for another term, and thus prevent the election of a Republican to the Treasurership—a consummation which the Tax-Eaters seem to dread as the direst of calamities.

And we must confess that the circumstances attending Mr. VON BAUMBACH's election to the office he now holds, and his re-nomination yesterday, were such as to lend some color of probability at least to the rumors we have mentioned. The man who brought him forward for election in the first place, and who has been his most ardent advocate throughout, is none other than HERMAN SCHWARTING, the late defaulting City Treasurer, under whom Mr. VON BAUMBACH served as deputy. But Mr. SCHWARTING's affection for BAUMBACH did not cease with his own exposure—for no longer ago than yesterday he might have been seen in the Democratic Convention, earnestly looking after the interests of his friend. We do not mean to assert that Mr. VON BAUMBACH is in any way responsible for the shortcomings of his late associates in office. He may have acted with scrupulous honesty amongst all the plundering that was going on around him. But the circumstances are such as to involve him in suspicion, and we should have been better pleased had he relieved us from the duty of pointing this out, by withdrawing his name as a candidate for re-election.

Considering these things, it is important that there should be a change in the management of the Treasury, and if we are not mistaken, a large majority of the tax-payers of the city agree with us in this respect. By all means let us have a man in the Treasury Department whose honesty is above suspicion; *such* a man is JOHN H. TESCH, the Republican and People's candidate.

RETURN OF MR. POTTER.—Our gallant Representative, the Hon. JOHN F. POTTER, returned from the East yesterday, accompanied by his wife and daughters. He left in the afternoon for his home in Walworth county, but will return to Milwaukee in the course of a week or so, and spend a few days with us. Mr. POTTER is in fine health, and very sanguine of an overwhelming Republican triumph in November.

HARVEST HANDS.—We hear from all quarters that harvest hands are greatly needed in the country, to secure the heavy crops now on the ground. The wages paid for such hands will vary from *one* to *two* dollars a day, according to the skill and experience of the men engaged. Some may even earn more. There must be plenty of unemployed laborers in our city who ought to be glad of the opportunity of earning good wages for a month or two, in the healthful air of the country.

ANOTHER FINE DAY.—Every fine day, now, is worth thousands of dollars to Wisconsin. Yesterday was a splendid sample of our best Summer weather. The sky was cloudless, and the sunshine brilliant; but the heat was deliciously tempered by a fine "sea-breeze" from Lake Michigan.

ON THE STUMP.—Our distinguished fellow-citizen, CARL SCHURZ, left here Monday evening, to fulfil his engagements in Illinois where he is to address a number of Republican meetings within the next fortnight.—From Illinois he goes to Missouri and thence to Indiana, to lend his potent aid to the good cause, in those two States.

ECLIPSE OF THE SUN THIS MORNING.—Early risers will have an opportunity of seeing *this* morning—providing the weather be clear—an eclipse of the sun. The obscuration will commence about six o'clock, the greatest at seven, and pass off by eight o'clock.

PERSONAL.—The Hon. CHARLES DURKEE, one of the Senators from Wisconsin in the Congress of the United States, paid a brief visit to our city yesterday. He seemed to be in excellent health and spirits.

Shall we have more School-Houses?

An ordinance of the Common Council providing for the erection of new School Houses in the Fifth, Eighth and Ninth Wards, is to be submitted to the voters of our city at the special election *to-day*. These houses were contracted for, last year, and considerable progress has been made in building them.—The adoption of this ordinance by the People will ensure their completion at an early date. *All the other Wards* have good School Houses, which the tax-payers in the Fifth, Eighth and Ninth Wards have helped to pay for and maintain. New School Houses are *imperatively* needed in these three Wards, and we therefore hope to see the ordinance adopted.

Sixth Ward Republican Club.

In order to oppose the hostile exertions of the so called Democratic party, and to maintain the true Republican-Democratic principles which that Pseudo-Democracy has undermined, and threatens to annihilate, the Republican citizens of the Sixth Ward unite themselves into a Republican Club.

CONSTITUTION.

I. The Club is to be called the Republican Club of the Sixth Ward;

II. Organized for the purpose of opposing the enemies of liberty, the kidnappers, and doughfaces, who have made Democracy a carricature and a by-word.

III. The Democracy, once the crown and pillar of the Republic, has degenerated to a party hostile to liberty, endangering the existence of the Union, and making free government an irony, therefore

Resolved, That the object of this Club shall be to promote True Republican-Democratic principles, to assist in combatting all tendencies, whether within or without the Republican Party, which may be hostile to Freedom.

Resolved, That the Republican platform adopted by the Chicago Convention is such as corresponds with our wishes.

OFFICERS.

President—GEORGE WACHTER.
Recording Secretary—ERNST GRAETS.
Corresponding Secretary—JONAS BRAUN.
Treasurer—W. F. OTTO.
Directors—P. STROUM, J. CHAPMAN, M. YOUNG.

ANNIVERSARY OF THE LIGHT GUARD.—The Milwaukee Light Guard, Capt. STARKWEATHER Commanding, celebrated their fifth anniversary, Monday, by a Target Excursion to Oconomowoc. A number of Ladies, and of Honorary Members and Members of the "Old Guard," accompanied the party. The Guard paraded at 8 A. M., in full uniform and, preceded by the American Cornet Band, marched to the Depot of the Milwaukee, Watertown and Baraboo Valley R. R. Company. Here, in consequence of the partial sinking of a bridge, a few miles out of town, a delay of an hour, or two occurred. At length, the train, consisting of a locomotive, a baggage and four passenger cars, got under way, and after a second detention at the doubtful bridge (which was finally put in order) sped along, at a rapid rate, towards Oconomowoc. The day was delightful; the country wore its brightest robes, and the spirits of the Excursion Party were tip-top.

Between 12 and 1 o'clock, the train arrived at Oconomowoc, and were welcomed by a salute of artillery and a crowd of the good people of the Village. Marching up to the La Belle House (admirably kept by Mr. FAY) the Guard and their guests partook of a most substantial and palatable country dinner, to which their appetites enabled them to do ample justice. Immediately after dinner the whole party, re-inforced by a goodly number of Oconomowoc friends, started in boats, of all sizes and descriptions, for a beautiful island in La Belle Lake, where the afternoon was delightfully spent in target-shooting, pic-nic-ing, fishing, dancing, &c.

The Target was of the customary dimensions for muskets and set up at a hundred yards distance from the shooters. Each man fired three shots, the average of the three deciding the prizes. These were won, as follows:

1st Prize.—Corporal W. H. STARKWEATHER.

2d Prize.—Private H. BOOTH.

3d Prize.—Corporal C. DUDLEY.

4th Prize.—Orderly Sergeant WEAGE.

The two bests shots were made by Lieut. CHAPIN, who struck the bull's eye twice in succession; but the officers did not compete for the prizes.

The shades of eve were falling fast before the Guard and their friends left the island and, returned to Oconomowoc. Here, after an excellent supper at the La Belle House and the interchange of friendly greetings with the kind and hospitable people of the village, the Guard formed again and marched to the depot. The cars were in readiness, the track clear, and a safe and pleasant ride of an hour and a half brought us back, all safe to Milwaukee, much pleased with the excursion and its various incidents.

MUNICIPAL COURT, July 17th.—Francis Beveat, drunk; penalty and costs $2 50.—Paid.

CHILD DROWNED.—The body of CHARLES COONEY, a deaf and dumb boy, aged 3 years, was recovered yesterday evening from the river, near LUDWIG's Garden. He was missed from home Monday at 9 o'clock A. M.; his father, JOHN COONEY, being absent, following his occupation—a sailor—his mother had used every exertion to find him, and became almost frantic when informed he was dead. The Coroner gave the body to her for burial.

THE PLACE TO BUY WIDE-AWAKE UNIFORMS.—B THROOP, better known as "Uncle Ben," No. 180 East Water street, advertises to furnish clubs in the interior with Wide-Awake uniforms cheaper than they can be bought in Chicago or anywhere else. The uniforms as made by him are in conformity with the original Club of Hartford.

THE sedate editorial correspondent of the *Wisconsin*, is evidently none too well posted in nautical matters, if his printers have "followed copy" faithfully. Describing the *Great Eastern*, he declares that "there is nothing clumsy about her *from stem to bow*."

THE PLYMOUTH CHURCH ASSOCIATION have purchased a lot on the corner of Lyon and Astor streets for the erection of the Chapel we alluded to some time ago. Yesterday, a contract was made for the building, which is to be 35 by 66 feet, and will be completed in about two months.

SUMMER CONCERTS.—The Milwaukee Musical Society give the first of their out-door concerts at MALMS' Garden, in the Fifth Ward, to-morrow evening. Concert commences at 5 P. M.

BROCKWAY'S OMNIBUSSES will be on hand at the corner of Wisconsin and East Water streets to-morrow evening, to convey people to the concert at Melms' Garden. Fare five cents each way.

Report of Committee on Schools on the Memorial of S. H. Martin.

The joint committee on Schools and on Finance, to whom had been referred the memorial of S. H. MARTIN, in reference to his contract with the city for building three three story brick school houses in the Fifth, Eighth and Ninth Wards, have examined the contract referred to, and feel compelled to state that in their opinion it probably must be admitted that the Common Council transcended their powers in making said contract with Mr. MARTIN, as there is no power conferred upon them by law to anticipate in the manner in which they attempted to do it, taxes to be levied in the next consecutive five years, and to issue to the contractor orders upon the same. It is proper, however, to add that the terms of the contract are liberal and fair, and the price to be paid reasonable; that the school houses are much needed, and a large amount of rent now paid annually by the city will be saved by completing the same.

It would be very much to be regretted if the contract could not be so modified (and the contractor has expressed to your committee his assent to such modification,) that the means could be furnished to complete the three school houses. Even if the estimate of the contractor of twelve thousand dollars having been expended upon the basement stories of two school houses, and materials furnished, and stone cutting, casting, lumber, &c., got under way, is too large, there can be no doubt that a large amount of work and material will be lost if the building of the houses should be postponed for an indefinite period.

Your committee perceive that by sections 100 and 101 of chap. 23 of the revised statutes, authority is granted to school districts to borrow money for the erection of school houses; provided the qualified voters of the district first sanction such loan. The common schools of Milwaukee have, ever since the organization of the City Government, been governed as those of one district, and the funds raised for school purposes by taxation and the receipts from the State school fund, have been expended under the same officers and the same regulations in the different schools organized in the city.

And the Common Council have never exercised the power conferred upon them by law to divide the city into school districts, and consequently the same remains to this day one district, for school purposes, and can exercise all the powers of such district.

Your committee deem it highly probable that by the adoption of the ordinance herewith submitted, if approved by the qualified voters of the city, the means may be raised for completing the three school houses.

Milwaukee & Mississippi R. R.—Hostile Attitude of its Managers to Our City, and the True Interests of the Road.

EDITOR OF THE SENTINEL:—Why does not the Board of Trade make proper representation of the management of the Milwaukee and Mississippi Rail Road to ISAAC SEYMOUR, Esq., the Receiver and Trustee?—The Bondholders in that Road cannot help knowing that their interest is represented by the whole line of road from Milwaukee to the River, and their Agent, when once informed, will promptly correct the present effort to make the Western end a Chicago road.

Let me ask the citizens of this city whether they desire that, first, the Milwaukee and Mississippi Railroad shall be voluntarily transferred to the Chicago and North-Western Railroad, and then the West end of the La Crosse surrendered in like manner? If not, they will do well to move promptly to advise the Trustee and Receiver of the danger impending over the interests of the *road* as well as this city, by the recent transfer of the Central to the Chicago road. It is certain that the business of the whole road must be seriously hazarded by cutting off one half, and sending it to Chicago, while that portion, which, by its location, cannot be taken from Milwaukee, is entirely neglected.—There are those who are so uncharitable, looking at certain things recently charged upon the Managers of that road, as to think some of the present arrangements are dictated quite as much by private interests, as a regard to the interests of the bondholders.—If the Board of Trade moves in a body, in the right quarter, we may hope for a change.

"WATER STREET."

Communication from Mr. Kemp.

TO THE EDITORS OF THE SENTINEL:—In your issue of yesterday my attention was called to a note from the pen of Mr. EDWARD MCGARRY, stating that he has no men employed on the City Hall. This is quite true. He also states that the men employed were my men. The men are employed by KEMP & KERR; but their day ends at 6 p. m. Although the emblem was, as Lieut Gov NOBLE said, a fitting one of what once did exist of the Democratic party, I had too much sympathy to torment my Democratic friends before the time, feeling sure that, after the 6th of November next, they will realize the truth of the following lines:

I've roamed through all the earth,
But not a resting place have found.

I am obliged to my friend MCGARRY for giving me credit for being a true Republican, and would state that if was I wavering in my views politically, I have no election as to the mind of any sane man. The Democratic party is no more.

Behold the emblem of thy state,
In flowers which bloom and die.

Consequently, the Republican party is the only one of the nation.

Permit me, in conclusion, to state, that no men employed by KEMP & KERR were employed for any such purpose. One of our apprentice boys, however, to use his own words, went up to the meeting, and seeing the commotion on the scaffold, went up and was induced, by some of my Democratic friends from the Glorious Old Third, to take part in the fun.

In conclusion, I would say that I belong and live in the Third Ward, and hope to do so until we can roll up as large a Republican majority there, as the late Democratic party did always. T. B. KEMP.

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment but this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a map, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase.

The Douglas Demonstration at Whitewater.

The *News* rejoices in a correspondent at Whitewater, who is worthy to shine in the columns of that truth-loving journal. The first appearance of this correspondent, on the *News'* stage, occurred yesterday, in the character of reporter at the DOUGLAS meeting in Whitewater, on Saturday last. The account of this gathering is in the highest style of the reportorial art; fancy being liberally drawn upon, to supply the place of facts. The heading is quite a gem in its way—"The Campaign in Walworth County—Great Douglas Demonstration at Whitewater—Four Thousand Democrats in Council, &c., &c, &c." The point of the joke here is, that there are not *fifteen hundred* "Democrats" in all Walworth county, and that not one-fourth of these were at Whitewater. FALSTAFF himself might have envied the talent which thus converted four or five hundred actual living and breathing men into "four thousand Democrats in—*buckram.*"

After this master-piece of a heading, the correspondent opens his budget in jubilant strain. "This," says he, "has been "a proud, exultant day" for the "fallen fortunes" of the Democracy of Old Walworth," and he proceeds to tell of the "exultant day's" doings. First, there was the usual pole-raising, then a flag; then JOHN A. SAVAGE, Esq., of Milwaukee," made a speech of "telling power" ("tell that to the Marines;") then "JOSHUA LADUE, Esq., also of Milwaukee," followed in "a masterly review," &c; then "Pump" CARPENTER, of Madison, made a speech which ended in his "*ringing* the neck" (so writes the reporter) of our venerable President and "throwing him overboard." Next came Mayor LYNDE in a set speech, and EMIL ROTHE, of Watertown, in a frothy one. ROTHE, it appears, warned his hearers against "the Republican Devil." Had he represented the "Devil" as a Democrat, Mr. ROTHE, no doubt, felt that it would have no terrors for the "four thousand Democrats" in council. So he attempted to frighten them into propriety by painting the Devil as a "Black Republican." It don't seem to have had the desired effect, for, according to our correspondent, there was a vastly increased consumption of whiskey in Whitewater, during the day and night.

In the evening Mayor LYNDE again entertained the "four thousand democrats" with one of his heavy speeches. According to the *News* Reporter:

> The Administrations of Bashford and Randall, Mr. Lynde discanted on in a manner to show, that the one utterly ruined the credit of the State, and that the tendency of both, and in fact of *all* Republican rule, is to degrade and depress labor.

Considering that during the BASHFORD Administration, *all* the departments of the State Government and one of the branches of the State Legislature, were held by Mr. LYNDE's own party, this attack cuts both ways; while our Mayor's success, in restoring the credit of our city and raising and encouraging labor, has scarcely been such as to warrant this sneer at the State Administration. If the credit of our city, under the management of Mayor LYNDE, were but one tithe as good as the credit of our State, under the Administration of Gov. RANDALL, we should be well off indeed.

"In conclusion," says the *News'* correspondent, Mr. LYNDE administered "a withering rebuke to JOHN F. POTTER, for *his pretentions to courage and manly bearing, and pitied those who could send to Congress no better Representative.*"

If Mr. LYNDE said anything of that sort, he is much more to be "pitied" than the electors of the First Congressional District, who sent Mr. POTTER to Congress, and who once did the same thing for Mr. LYNDE, but could not be persuaded to repeat the experiment. "*Hinc illæ lachrymæ.*" Mr. POTTER not only holds the seat from which Mr. LYNDE was *ousted*, but enjoys the popular respect and confidence which Mr. LYNDE forfeited. The twaddle about Mr. POTTER's "*pretentions* to courage and manly bearing," is utterly unworthy of Mr. LYNDE. We have not the slightest objections, however, to his repeating this same silly talk in every precinct of this Congressional District—for every such unmanly, unfounded and malicious attack upon JOHN F. POTTER will only serve to swell his majority in November next.

THE CHARLESTON MERCURY.—In reply to some question from the Savannah *Republican*, the Charleston *Mercury* says:

> To the third interrogatory of the *Republican*, we answer: We support the Breckinridge ticket, not "because it is a sectional one," but simply because it asserts the rights of the South. We admit that it is sectional; but this fact arises, not from the principles or rights it asserts being sectional, but because a sectionalized North repudiates the Constitution and denies them. That this ticket will be beaten, we do not know. We are inclined to believe—only inclined—that it will end in General Lane being President of the United States.

This is undoubtedly the calculation of the BRECKINRIDGE men. They do not expect to elect their candidates by the popular vote; but hope to throw the election into Congress; prevent a choice in the House and then secure a majority for LANE in the Senate.

> THIRD WARD DOUGLAS WORKING MEN'S CLUB.—This Club was organized last evening, and, on motion, Edward Hackett was chosen Chairman pro tem, and J. A. Levy, Secretary pro tem. *There being but few present*, the meeting adjourned till Friday evening.—*News of yesterday.*

Getting up clubs of "working men" is evidently up-hill business for the Sham Democracy. A party, whose candidate for the Vice Presidency believes that "capital should *own* labor," whose President *vetoes* a FREE HOMESTEAD Bill, and whose principles and practice alike forbid encouragement and protection to Home Industry and Enterprise, has little to expect from the WORKINGMEN of the United States. They propose, this year, to fight under the LINCOLN flag.

FLAGS ON SUNDAY.—The Chamber of Commerce, of New York, have passed a resolution recommending all masters of vessels in the port of New York to hoist their flags on Sundays and holidays, as a mark of respect to the day and to the nation.

The Douglas Platform in Georgia.

There are only two newspapers in the State of Georgia which have hoisted the names of DOUGLAS and JOHNSON at the head of their columns. They are the Augusta *Constitutionalist* and the Atlanta *Southern Confederacy*.

Mr. HAMBLETON, of the *Southern Confederacy* says:

> We are for *the repeal of the restrictions upon the African slave trade*, regardless of its construed impolicy by the Northern fanatics and Southern submissionists.
>
> We are opposed to the acquisition of any more Territory until the African slave trade is reopened, and the immediate sale and enslavement of all free negroes that are found within the limits of the Southern States after a specified time to emigrate.

This is *Douglasism* at the South. It is in keeping with the doctrines of Mr. H. V. JOHNSON, the DOUGLAS Candidate for Vice-President, who holds that "*Capital should own Labor*," and that SLAVERY is entitled everywhere to Federal Protection. "Popular Sovereignty" is openly laughed at, as a humbug, by the DOUGLAS men at the South, while at the North it is still successfully employed to gull the more credulous partisans of Sham Democracy, and induce them to adhere to the desperate fortunes of Mr. DOUGLAS.

All's Well in New Jersey.

The Newark *Mercury* gives assurance that "the idea of fusion in this State seems to be generally abandoned by the Democracy, and all hands are going in for a free fight. The DOUGLAS men are plucky and determined under the instructions of their leaders, and the BRECKINRIDGE men, while they still hold out the Olive Branch, are making it a good sized stick, with which to belabor the other faction if it continues to be refractory. There is more life, more vivacity, more spirit in the DOUGLAS gatherings—but there is more concealed ugliness at the BRECKINRIDGE meetings. Both factions show clearly that they see the end from the beginning that they understand the drifting current, and that they are fully prepared for a four years' sojourn at the head of that famous river, known for its extraordinary saline qualities. We like the spirit of both. We enjoy their meetings, and we are delighted by their discussions. The Bell-Everett party is nowhere in affording amusement for the campaign, and they will do right in submerging themselves beneath one, or the other of these factions."

A CHANGE OF COLORS.—We stated, a few days since, that the Central City *Courier*, a leading Democratic paper, published at Syracuse, N. Y., had hauled down the DOUGLAS flag, and run up the BRECKINRIDGE colors. The reasons for this change are thus stated in the *Courier*:

"As an eye witness of the occurrences at Charleston and Baltimore, we cannot accord to Mr. DOUGLAS the prestige of a regular nomination, and therefore we cannot be bound by any party allegiance to support him. In looking over the field, we cannot regard his election as even possible, or satisfy our mind that he is certain of receiving the electoral votes of a single State. The importance of defeating Mr. LINCOLN and the Republicans, cannot, therefore, be brought as an argument to influence Democrats in his favor.

"We did hope that some arrangement might and would be made, after the excitement attending the Convention was over, by which a united vote could be cast in a direction that would secure the election of some Democrat to the Presidency, but the official "pronunciamento" of the National Executive Committee of the friends of Judge DOUGLAS, recently issued, in which all idea of union, concession or consolidation is emphatically repudiated, and all arrangements for combining the Democratic vote of any portion of the country denounced, has effectually dissipated that hope, and we can now see the path of duty only in a vigorous support of BRECKINRIDGE and LANE, the Democratic candidates of the Democracy of Democratic States."

MOUNT VERNON.—Mr. G. C. THORBURN, who has been appointed Superintendent of Mount Vernon, states that the ladies of the Association, though they have paid for the property, have not yet taken formal possession. They have thus far only about $30,000 towards fitting it up, but are still making collections, so that they may have as large a fund as possible. It was intended to take possession on the 4th instant, but the matter has been again deferred until fall, when they will probably take charge of the place, whether they have money enough or not. A proposition to Congress to appropriate $100,000 to the object not meeting with the favor expected, owing to some constitutional objection, it is intended to make application to the various State Governments during the coming year for donations to make up that amount. The collections from the West have not met expectations.

THE JAPANESE MAKE A DONATION.—Previous to leaving New York, according to a letter published in the N. Y. *Herald*, the Japanese Embassy placed in the hands of Mr. AUG. BELMONT $20,000, to be distributed as a gift to the police of the several principal cities in which they stopped. The donation is said to have been apportioned as follows:

Cities.	Days.	Men.	Amount.
Washington	25	160	$2,650
Baltimore	1	400	300
Philadelphia	7	711	3,300
New York	18	1,595	13,750
Total			$20,000

A DOG OVER THE FALLS WITHOUT INJURY.—The truth of such stories as have been frequently told (without receiving much credence,) of dogs going over the Falls and surviving the passage, was tested the other day, according to the Niagara Falls *Gazette*, and fairly established. The *Gazette* says: "JOHN, the drayman, (who, by-the-bye, must be a hard-hearted cuss,) threw his dog into the rapids, near Goat Island Bridge, and immediately afterwards went to the foot of the Ferry stairs and found him but little injured by the tremendous leap. The experiment was tried to convince some incredulous persons."

THE CROPS IN WALWORTH COUNTY.—The Whitewater *Register* of the 14th instant, discoursing about the prospect in that region, says:

> "If any person has any doubt about the entire certainty of an enormous grain crop in this portion of Wisconsin, this year, we ask that person to get a horse and ride about the country, for ten miles in any direction from Whitewater. On Tuesday last we took a short jaunt towards Cold Spring, passing the farms of L Vincent, Mr. Fryer, Giles Kinney, Wm. Mulks, and N P. Parsons, and on each one of them the grain appeared to be perfect—lodged a little in spots, but not so as to damage it. Mr. Kinney commenced cutting one piece of wheat on Tuesday.
>
> Mr. K. informed us that he thought one piece of his wheat would yield forty bushels per acre, and we saw other pieces on the farms of Wm. Mulks and N. P. Parsons, which looked equally heavy. The grain is well filled, and the berry unusually plump and well developed everywhere."

THE CROPS IN EAU CLAIRE COUNTY.—The Eau Claire *Free Press*, of the 13th instant, contains the following satisfactory report:

> "The growth of wheat is perfectly astonishing in this section of the country. There is hardly a piece to be seen within a day's ride, that does not give abundant promise of 30 bushels to the acre; while many pieces will yield more than that amount. Oats and barley are also as heavy as they can stand. Rye, so fas as our observation goes, is a good crop, but not quite so heavy; and corn is coming on finely. Potatoes and other field vegetables are doing splendidly.
>
> "If nothing happens to the present crops, the farmers of this section will care but little for mortgage stay laws, interest laws and all that, as they will be able to pay themselves almost entirely out of debt."

A CLIENT once burst in tears after he had heard the statement of his counsel, exclaiming—"I didn't think I had suffered half so much."

IT is a good horse that never stumbles, and a good wife that never grumbles.

Oconomowoc Seminary.

For the Sentinel.

The Fourth Scholastic Year of the Oconomowoc Seminary closed on Friday last, the 13th. On Thursday the entire day was devoted to the examination of classes, which gave perfect satisfaction to the friends of the institution. The exercises on Friday opened by Morning Prayer in the chapel. Prayers were read by Rev. Mr. MILLETTE, after which a beautiful and appropriate sermon was preached to the pupils by Rev. A. D. COLE, President of Nashotah Theological Seminary. At 2 o'clock P. M. the exercises were resumed at the School Room of the Seminary, which presented a beautiful appearance, with its graceful decorations of leaves and flowers, and its group of young and happy faces. Wreaths and festoons were disposed around the room, and on the wall was written, in letters of green, the motto of the institution, "That our daughters may be as the polished corners of the temple." At the conclusion of the exercises, which consisted of vocal and instrumental music, compositions, colloquies, &c., the Rt. Rev. Bishop KEMPER being present, made a short, but impressive address to the pupils, full of holy and paternal counsels. The exercises of the day then closed with the usual daily services, selection of Psalms, *Gloria in Excelsis*, Creed and Collects. Thus closed some of the most interesting exercises it has ever been our lot to witness. We could not repress the thought that if all the youth of our land would follow the noble counsels there given, the female society of America would soon become more intelligent, christian and and happy. OCONOMOWOC.

How Civil War is to Result from Abraham Lincoln's Election!

From the Montgomery (Ala.) Mail.

"Run three Presidential tickets against Lincoln, thereby giving Lincoln the best chance for election. After Lincoln is elected some Southern communities—most of them, perhaps—will "refuse to let a Postmaster, appointed under his Administration, take possession of the office." Then the United States authorities will be interposed to "enforce the law." Then the United States authorities will either be shot down, or they will shoot somebody down. Then the people of the community will rise up against the United States Government, and will be sustained by neighboring communities, until civil war, with all its horrible butcheries envelopes the land in a shroud of blood and carnage!"

To this empty bravado from the Montgomery *Mail*, the Albany *Evening Journal* makes the following practical answer:

"It is the prerogative of any community, as it is of any individual, to refuse to patronize the Post Office Department. If they do not wish to receive their correspondence through the mails, no one has the right or disposition to compel them to do so. We are quite sure that President Lincoln will be the last man to use or recommend any force in such a contingency.

It would, however, be a fortunate thing for the revenues of the department if the people down South should compel about one-half of their post-masters to throw up their commissions. They are a very expensive set of follows—eating a great deal more than they earn, and drawing upon the North for the deficiency.

For instance, during the last nineteen years, the mail service in the Southern States has cost $50,544,416 18, and the receipts have been only $27,549,620 08; showing a deficiency of nearly *twenty-three millions of dollars!*

During the same period, the mail service in the Northern States cost $60,891,203 34, and the receipts were $68,648,510 70; showing a *surplus* of nearly *eight millions of dollars.*

What more lucky thing could happen, therefore, than the voluntary suspension of two or three hundred of these pauper establishments? It would be pre-eminently fortunate if what is threatened should happen in Alabama, where the figures stand thus:—Receipts, $2,155,103 00; Expenses, $4,997,827 62.

Pretty fellows, these Alabama chaps, to talk about shutting up the post offices in the event of Lincoln's election, when, within the period named, they have cost Uncle Sam *nearly three millions of dollars!* If they shall stop their drafts, let them do so, by all means. No one will try to compel their renewal."

The Eclipse of the Sun.

From the Boston Traveller.

On June 16, 1860, the centre of the moon's shadow passed over the States of New York and Massachusetts, in the line of Troy to Boston, and throughout the space of 60 miles to the North and also to the South of this line the sun was totally obscured. Probably no eclipse since the settlement of the country caused so much excitement as this, and even now it is frequently alluded to by the fortunate spectators of the phenomenon. Indeed, it took place under a rare coincidence of favorable circumstances. The day was cloudless; the total obscuration occurred near noon, when the augmentation of the moon's diameter for its altitude is the greatest, and its *apparent* motion from the sun in longitude the slowest, and also at a time when the sun was at its greatest distance from the earth. The duration of the total eclipse was therefore, very long, and nearly as long as it can be. At Troy and Boston it was almost five minutes, and 4m. 48 sec. at Salem, Mass., where the eclipse was carefully observed by the late Dr. Bowditch.

The first return of the eclipse, on June 26, 1824, was probably central in some of the Western States; at Boston it began only about nine minutes before sunset; nevertheless, the beginning was well observed on Jones' Hill, in our neighboring town of Dorchester.

The second return on July 7th, 1842, was central in Spain, France, Germany, Russia, &c.; it took place in our night, and therefore could not be seen here. Its fourth and fifth returns, on July 18th, 1860, and July 29th, 1878, will be visible in the United States; at the fourth, it will be central in Oregon, the eastern part of Washington Territory and Texas, in the afternoon; and at that of next week, in the Northwestern portion of the Territory, in the forenoon. Moreover, as the eclipse of the 18th will also be visible throughout Europe, and a large portion of Asia and Africa, it will be one of the most important obscurations during the 18th century. According to the tables of Professor Hausen, the duration of the Central Eclipse on the 19th, from the instant of its coming upon the earth, about two degrees W. S. W. of Cape Disappointment, Washington Territory, to that of its leaving the earth at sunset near Massonah in Abyssinia, on the Red Sea, will be two h. 56 m. 17 8 sec., of which the centre of the Moon's shadow occupies 56 seconds in crossing the Washington Territory, and about 34 1-2 minutes in crossing Washington Territory, British America, and Hudson's Bay. It will be about 86 minutes in passing over the North Atlantic and Bay of Biscay, 10 minutes in crossing Spain, 8 minutes in crossing the Mediterranean and the Island of Ivica, and about 36 1-2 minutes in crossing Algiers, Tunis, Tripoli, Nubia and Abyssinia.

NEW METHOD OF RESUSCITATING PERSONS APPARENTLY DROWNED.—THE SILVESTER METHOD.—We find the following in "BRAITHWAITE'S Retrospect," and advise all to read, cut it out, and post it up in a conspicuous place—more skill in the treatment of persons apparently drowned is much needed:

This new method, according to its advocate, Dr. H. R. Silvester, possesses many advantages over the "ready method" of Marshall Hall; it is easy of performance, and may be employed along with those other means in which so much confidence has hitherto been placed.

The *Silvester Method* is a simple imitation of natural deep inspiration, and is effected by means of the same muscles as are employed by nature in that process." In deep inspiration, we lift the ribs and sternum by the pectoral and other muscles which pass between the chest and the shoulders; so in the "new method" the ribs and sternum are lifted through the intervention of the muscles, *by steadily extending the arms up by the side of the patient's head.* In this way the cavity of the chest is enlarged, a tendency to a vacuum is produced, and a rush of air immediately takes place into the lungs.

Expiration is brought about by simple compression of the sides of the chest by the patient's arms. Thus "the arms of the patient are to be used by the operator as handles to open and close the chest."

The following rules are to be observed in inducing artificial respiration by this new method.

1. *Position.* Place the patient on his back, with his shoulders raised and supported on a folded article of dress.

2 *To maintain a free entrance of air into the windpipe.*—Draw forward the tongue, and keep it projecting beyond the lips. By raising the lower jaw the teeth may be made to hold it in proper position.

3. *To imitate the movements of respiration.*—Raise the patient's arms upwards by the sides of his head, and then extend them gently and steadily upwards and forwards for a few moments [This action, by enlarging the capacity of the chest, induces inspiration.]

Next turn down the arms, and press them gently and firmly for a few moments, against the sides of the chest. [Forced expiration is thus effected.]

Repeat these measures alternately, deliberately, and perseveringly fifteen times in a minute.

Directions for getting Patients into the State Hospital for the Insane.

1st. It should be particularly borne in mind that the Institution is not designed as a mere *asylum;* but as a hospital for the treatment and cure of insanity; and consequently incurable cases will not be retained therein to the exclusion of those which may be regarded as curable.

2d. The application for admission may be made by any person standing in the relation of friend or guardian for the time being; and such application should set forth the full name of the person, also the age—color—civil relation, as to married, single or widowed—place of birth—present residence—occupation and pecuniary condition—how long insane—whether the first attack or otherwise—whether the patient is mild and manageable, or excitable and violent—how at present restrained—whether subject to epileptic fits, or prone to suicide or homicide—the probable cause of insanity—whether hereditary—and whether the patient has been subjected to hospital treatment, and if so, where, and how long?

It is important that as many of the above facts as possible should be stated in the application or certificates accompanying it.

3d. Such application must be accompanied or followed by the following certificates, *before* the superintendent can determine whether the patient can be admitted.

I.—Two physicians of the county in which the patient resides, must certify they have carefully examined into the condition of such patient, and believe him or her to be actually insane. It is desirable that such certificate shall be somewhat explicit as to the present and past condition of the patient, setting forth the opinion of the physicians making it as to the probabilities of cure, and any other important suggestions which they may deem proper.

II.—The chairman of supervisors of the town, the mayor of the city, or the president of an incorporated village in which such person properly resides, must certify under oath, to the Superintendent of the Hospital, that such medical examination has been made; and such chairman, mayor, or president, must accompany his certificate with the certificate of the examining physicians.

It must be specially observed by those having the Insane in charge, that the application and the above certificates must be forwarded to the Superintendent, and his *reply awaited before* patients can be sent for admission.

It is now positively known that the present building *cannot* accommodate all the Insane of the State; the above precaution, therefore, becomes specially necessary to avoid disaster to those who are thus afflicted. And while it is now apparent that all applicants cannot be admitted, the spirit of the organic act, as well as that sound policy which would make the Hospital subservient to the cause of humanity, and promotive of the public welfare, gives precedence to those cases deemed most readily curable, having due regard to the relative rights of counties.

It must, indeed, be apparent to all, that if incurable cases are permitted to exclude those which may at present be curable, these, in their turn may become incurable also; and thus the practical utility of the Institution may be quite destroyed!

With respect to the *residence* of insane persons, we deem it proper to suggest, that if such person shall have been, for the time being, removed to the county jail or county poor house, the residence should be regarded as in the town, city or village from which he had been thus removed to such jail or poorhouse; and the proper officer of such town, city or village should make the necessary certificate as to the medical examination of such person. But if an insane person thus confined shall not have had a residence in any particular town, city or village in the county in which he may be so confined, the chairman, mayor or president of the town, city or village in which such jail or poor-house may be located, would seem to be the proper person to certify to such examination. In this last class of cases the law is not clear; but such will be adopted as the rule until further legislation may be had on the subject. All expense in conveying patients to the Hospital must be borne by such patients, except where persons in "indigent circumstances" apply for relief in that respect to the chairman, mayor, or president of the town, city or village in which they reside, in which case the expense must be borne by the county.

I do hereby approve, and shall act in accordance with the above regulations.

DIED FROM HIS INJURIES.—Mr. Willard died at about 11 o'clock on Friday night.—Too far advanced in years to bear up against the torture of having a leg and arm amputated, after being horribly mangled by the accident, he sank under the operation, and passed quietly away. His mind was clear to the last moment, enabling him to make a hurried direction for the arrangement of his business matters, and to take a final leave of his wife and son.

Mr. Willard had an insurance on his life of $3,000, in the Connecticut Mutual Company, of which Mr. Simeon Dean is agent. The money will be paid over to the family.—*Madison Argus, 16th.*

FIRST PREMIUM

Celebrated Family and Manufacturers

SEWING MACHINES.

THESE MACHINES ARE FIRSTCLASS and make the well known SHUTTLE, or LOCK STITCH, which for economy, durability and beauty far surpasses all other kind of STITCH.

The proprietors warrant their machines to do more work and give better satisfaction to the purchaser than any other Sewing Machine in the market, and to sew from the finest gauze to the heaviest cloth, or hard leather, with the machine running at highest speed, without stopping or changing tension, making the seam elastic, alike on both sides and dropping no stitches. It is safe to conclude that the machine that will do this *best* is the best for family use.

Family Machines from $50 to 125.

All of these machines, Family, Manufacturers and larger, are built upon the same principle, and free from all WIRE SPRINGS, LEATHER, or RUBBER PADS which cause so much annoyance in other machines. For manufacturing purposes this machine has no rival; for Tailors, Harness Makers, and for any one who wishes a reliable machine, and one that is always ready for any kind of work, and all kinds of sewing with Cotton, Linen and Silk WE DEFY THE WORLD.

WE OWN THE EXCLUSIVE RIGHT for the sale of MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES, for and within the States of Wisconsin, Iowa and Minnesota, and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us, and by our consent, are and will be direct infringers upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper and immediate redress.

We have made extensive arrangements with the most celebrated manufacturers, whereby we can fully supply the increasing demand with the best qualities of these Tipped Boots and Shoes from our store in Chicago, each pair of which will be stamped and labeled with our name.

We shall recognize no Tipped goods within either the above States, but such are thus stamped and supplied by us.

NATURE.

BY JOHN J. PIATT.

I felt the Organ-tremor sweet,
Homeless within the Sabbath street.
It whispered sweet and lowly-mild,
"Come home, thou weary, wandering child,
Lost in the wilderness and dust
Of Pride and Folly and Mistrust.
Weary and world-sad, cast away,
Thy father calls thee home to-day."

I passed within: the Organ's voice
Was buried in the people's noise.
Without, the Organ-tremor sweet—
Within, the red polemic heat:
Against the pulpit's sounding board
Torrents of words to foam were poured,
The heavenly seeds of music lost
In weeds that with the flowers were tossed.
Within I heard the voice no more
Whose dying music blessed the door.

I passed into the desert air:
Strange breezes kissed me everywhere;
Strange birds from out the boughs above
Sang sister-sweet to me. A dove
Cooed close and quiet, and, at rest,
Some strange sweet dove lit in my breast;
And lo, an Organ whispered mild,
"Come home thou weary, world-tossed child.
Weary and world-sad, cast away,
Thy father calls thee home to-day."

I felt the Organ-tremor sweet:
The strange flowers kissed my homeless feet,
And a sweet influence, sweet and free,
Twined arms around me lovingly,
Lost in the wood alone; and there
The Organ's pulses beat the air—
And in my heart a voice I won:
"I am thy mother, darling son,
Thou orphan from thine earliest day,
In the world's dewless dust astray;
Thy Father's soul above had birth;
My flowers are on his grave, the Earth."

Peeler's Patent Plow.

From the St. Louis Christian Advocate.

MR. EDITOR:—In answer to inquiries in relation to this now famous patent, allow me to make a few simple statements of fact.

1. It is no more than a *plow*, requiring horse-power to draw, and human-power to direct, as other plows do.

2. Its merits, as a plow, are various, among which may be noted: 1 Its capacity to carry, at the same time, with the same team and same plowman, *two blades*, one to *turn* the soil, and the other to *subsoil*, to any required depth. 2. Its adaptability to carry any kind of blade, turning right or left; a bull tongue for deep culture; a shovel, or sweep, for *breadth* of culture; a garden blade, for preparing garden soil: and all these of any required size, shape, pattern or weight; and each kind of blade can be taken off, and another kind put on the stock in two or three seconds, thus converting it into a new plow, of a different kind and for different uses, at the will of the operator, almost instantly; and, in connection with the above-mentioned blades, it carries a subsoil blade (taken off at will) that will cut, if necessary, twenty inches in depth, without turning up the soil. 3. The construction of the stock is so simple—without a mortice, screw or nail, fastened, in all its parts, by five little iron bolts—that it can be taken all to pieces in three minutes, and any one part datached from all other parts, for purposes of repair or renewal. 4 It is so simple in its mechanism, that a boy twelve years old, with a hatchet, auger and saw, can make the woodwork in half an hour, rough, perhaps, but securely; and any blacksmith, who can turn a horse-shoe, can make all the rest. 5. It is the cheapest plow, having reference to the variety of work it can be made to do, that ever was constructed. These are some of its merits.

3. It is believed that a saving of $3 to $5 on each plow can be gained by using this plow, over any other now in use. If this be true, then, as the State of Missouri keeps and uses about 300,000 plows, one-third, or more, of which are renewed every year, the adoption, generally, of this patent, would make an annual saving, to the planting interest of the State, of about *half a million of dollars*—enough to pay the State taxes each year. In view of this fact, I submit, the people of Missouri ought to receive this invention with favor—ought to hail it as a benefaction, and not regard it with any prejudice. If any minor changes should be necessary, to adopt the plow to any particular soil, or character of land, let those changes be made, so as to make this important invention available fully to the public weal.

4. As an economical arrangement, and as benefiting the country, the Missouri Republican newspaper remarked, after a public exhibition: "Men can't live without bread. Bread can't be had without the plow. Plows can't be had without the money or labor.—That style of plow which combines the *greatest efficiency* with the *least outlay* is the greatest benefaction to the world. Peeler's invention has carried cheapness, simplicity, and varied usefulness to the utmost verge of the possible." Such is the testimony borne by a very competent judge, who was present at the exhibition of the plowing capacities of the Peeler plow.

5. Human judgment and taste are so multiform and variant, that, when any article is exhibited, minor changes and unimportant modifications are suggested in endless series; thus, one remarks, this plow had better be a little stouter; another, these blades are too straight; another, these blades are not quite curved enough; another, this foot ought to extend back a little; another, this subsoil blade ought to be longer, &c.,&c.,&c; while the plow in practice has worked to admiration. Then a gentleman, writing me from Saline county, and enclosing his obligations for the county right of that county, makes this remark, which is pregnant with meaning: "We have tried the plow, *and it will do all the inventor claims for it.*"

6. But, in reply to all such suggestions, it may be remarked, it is the principle of the *attachments and fastenings*, and the *form of the stock* that are patented—not the size, or shape, or curvature, or thickness, or length of blades or parts. And any blade ever made, or whichever may be made, can be readily adjusted to this stock, and worked on this principle.

7. A man may make a plow on this plan, that thirty oxen may plow with, and have enough to draw; he may turn the soil, and break the sub-soil to a depth of forty inches; or, he may make a plow on the same principle, just large enough for a two year old mule colt to draw. Every man's taste may be consulted; every man's soil may be stirred; prairie or alluvial, or rocky, or rooty and stumpy land; it matters not. Order a plow blade to suit, and the stock will carry it and twenty others, at one time, in connection with the sub soil blade, or not, as one pleases. If one loop for fastening the plow be deemed insufficient, then put on two loops; if any one fancy the largest turning blade ought to be supported by a brace fitted under the blade, then supply that brace, or order the smith to place it there. It is the principle of adaptation to any work, and the plowing and sub soiling at the same time, which gives this invention its excellence over all others.

8. Amidst the duties of my profession, I can only give to this matter the attention necessary to see to the proper execution of contracts. My connection with the subject matter is as Attorney for the Assignee; he is my client, and resides out of the State; but I make myself responsible for the correctness of these statements. I was raised on a plantation, and taught to work. I know what plowing means; and I have never seen anything in the shape of a plow at all to be compared with this, in these respects:—Cheapness, simplicity, strength of stock, lightness, convenience and adaptability to all kinds of plowing.

Four or five factories are now constantly employed in manufacturing the Rubles Plow in Missouri, and cannot supply the demand, which is constantly increasing. Forty counties have been taken by manufacturers, and $20,000 worth have been assigned by counties for cash bonds.

11. I have been informed that there is a profit to the manufacturers, at the prices now published, on each plow stock and set of blades, of about $5,00. Now, assuming these plows come into general use, (of which there can hardly be a doubt, and supposing a county run, say 4,000 plows, then the manufacturer's profits on such a trade, supplying one third of that number a year, would amount to, say, $4,000 to $6,000.—From this rough estimate, it will be seen that County Rights are very important privileges. A most profitable business can be thus created; and one which would be as certain and remunerative as any other business, and perhaps more so. Men must have plows.

13. Some men who are interested in some other kinds of plows, have attempted to depreciate this invention, and the inventor; but their efforts are fruitless, and unwisely directed. The best thing that such men can do is to adopt *this* patent, and avail themselves of its advantages.

14. I do not furnish specimen plows, and have nothing to do with the manufacture of the plow. I represent the Assignee in making Deeds for County Rights; and I have the disposal also of the State of Arkansas, Indiana, Wisconsin and Minnesota, certain territories. These prices are not binding on any manufacturer who owns a county; he may fix his own prices.

TAKE THIS OCCASION TO ANNOUNCE to their friends, and the public at large, that they have removed from their old quarters to their present location, for the purpose of obtaining more ample accommodations for their business, and to keep pace with the requirements of their trade. We have just made heavy additions to our stock, which makes ours the best assorted Family Grocery in town, and we intend to be in future, as we always have been in the past, the first in the market with every novelty of the season. We are receiving goods every week from the East, thereby always keeping our stock fresh and full. Everything pertaining to the trade can be found at our establishment, and we are prepared to sell at wholesale as well as retail, on as favorable terms as any concern in town. Teas, Sugars Coffees, Dried Fruits, Hermetically Sealed Fruits, and every other article usually found in first-class family groceries, are sold by us, and always warranted as represented. We will sell you a better Tea for fifty cents, than you can buy anywhere else in town for seventy five, and as good a one for forty, as our windy cotemporaries, who make such a blow on TEAS *will* or *can* sell for fifty. We mean what we say, and stand ready to verify it every hour in the day, and every day in the week. We make it a point never to be undersold, and want it distinctly understood that we do our business upon that principle.

Country merchants can always sort up their stock with us, to a good advantage. We will sell you goods by the package as low as any of the wholesale dealers down town.

Butter and Eggs are received by us daily, from our agents in the country.

St. Nicholas Hotel,

BROADWAY.
NEW YORK.

WHEN COMPLETED, SIX YEARS ago, the St. Nicholas was universally pronounced the most magnificent, convenient and thoroughly organized establishment of the kind on this continent. What it was then, it remains today—without a rival in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad derived from its magnitude, its superb appointments, and its homelike comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

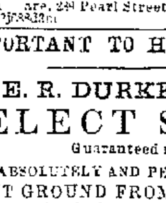
SOYER'S SULTANA'S SAUCE.

For Hot and Cold Dishes of all Kinds.



THIS MOST DELICIOUS and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite sauce in England and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid in digestion.

Opinions of the London Press.

"We recommend our correspondent to try MONS. SOYER'S new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

"Savory, Piquant and Spicy, worthy the genius of Soyer."—*Observer.*

"A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—*Atlas.*

Richardson's Irish Linens. Damaks,

DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE
HYPOPHOSPHITES
OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF
CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) has obtained the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Lyndville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. T. Rost, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Morris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—Am. Druggists' Circular.

"Mr. Winchester is worthy of all confidence and devotes himself enthusiastically to these preparations in all their variety of combination. . . . Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1850.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease. I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption
IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in single syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

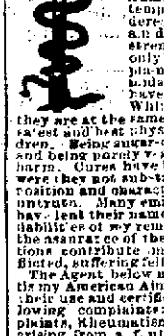
Ayer's Cathartic Pills.



THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints: Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Washington Matters.

WASHINGTON, July 17—9 P. M.

The resolutions of the National Democratic volunteers of New York, adopting President Buchanan's speech at the Breckinridge ratification meeting as an expression of their own views, were presented to him yesterday by Isaac Lawrence, associate editor of the Democratic Quarterly Review. To day the President acknowledges their receipt by a letter in which he, beyond a grateful expression of his thanks, speaks of himself as among the last of a race of men who have been the guardians of the constitution and the union. He remarks that the sacred duty of such guardianship has descended to a new generation, and the only hope of perpetuating the union rests in the observance of all constitutional obligations.

Messrs Taylor, of La., Pugh, of Ohio, and Rust, of Ark., in behalf of the Douglas National Executive Committee, have issued to the Democracy of the U. S. an address of explanation and counsel. They declare as the universal sentiment of the supporters of Douglas and Johnson, that no compromise whatever is admissable; that they have made no proposition for a joint electoral ticket in any State, and that they expect the rejection of such propositions indignantly, whenever and wherever made.

They say if we have any friends in any State let them call a State Convention at once and nominate a full electoral ticket pledging the exclusive support of Douglas and Johnson. We can agree to nothing else, because to acknowledge the right of a fractious minority to dictate their own terms of co-operation, to suffer them to violate the solemn professions of the Democratic party, and trample under foot our Democratic usages, would be to disband the National organization.

The apprehensions of the public printers are relieved by the decision of Attorney General Black, who declares that the law reducing the prices of printing 40 per cent. is not retroactive.

The Light Infantry Battalion are making preparations to receive the Chicago Zouaves.

Later from Pike's Peak.

ST. JOSEPH, July 17—9 P. M.

By the Pike's Peak Express, which arrived yesterday afternoon, we have news from the Peak region as follows:

DENVER CITY, July 10.—Considerable excitement now exists in this city, on account of reported rich discoveries about three miles up Cherry Creek from this city. Yesterday some one hundred claims were staked off, and parties left here as early as 2 o'clock this morning, to make claims.

The discovery prospects from 5 to 10 cents to the pan.

Some four miles are staked off in claims now, and others are still rushing out to secure claims.

A meeting is called to organize a district and elect officials.

New gulches are being discovered daily on the Arkansas, which prospect nearly as well as California gulches.

The water was to be let into the ditch this week, so that the dry digging's above Gregory's will be supplied with water in a few days.

The trouble in getting quartz mills into successful operation, have disheartened many, who have hitherto been most sanguine of success, and quite a number would sell out at first cost quickly, if they could. It is a difficult matter to ascertain the real cause of the trouble.

Some say there is no gold in the quartz and others say that it is impure quicksilver, bad water and inexperience. Be that as it may, scarcely any of the mills put up this season are paying expenses yet.

Clark, Gruber & Co., opened their banking and assay office to-day.

Weather hot. Business moderate.

Senator Douglas in Massachusetts.

WORCESTER, July 17—9 P. M.

Judge Douglas arrived here this P. M., a few minutes past 3 o'clock, and was greeted by an immense crowd of people. A salute was fired from the open space, south of the depot, under direction of Adjutant Studley. A temporary platform was erected within a few feet of the cars, from which he was introduced to the multitude by Hon. Isaac Davis, who, with a few other friends, had met him at the Junction Depot, and accompanied him to the depot at Washington Square. The wildest enthusiasm prevailed as the train left the depot. The crowd followed for some distance, unwilling to give it up so—cheering and swinging their hats.

Another Application for a Writ of Habeas Corpus.

MADISON, July 17—9 P. M.

Another application was made to the Supreme Court this morning for a writ of habeas corpus in the case of S. M. Booth. The grounds set forth in the petition are that the U. S. authorities have no right to confine Booth for an indefinite period, until his fine is paid; and that there is no authority, even admitting that he is guilty of an offence properly punishable by imprisonment, or confining him in the Custom House. A decision will probably be given to-morrow.

NEW ORLEANS, July 16—9 P. M.

CLEVELAND, July 17—9 P. M.

The fireman and a man, name unknown, were instantly killed; engineer severely injured.

EXCHANGE AT CHICAGO.—The *Press & Tribune* of this morning, says:

Exchange is decidedly easier. The selling rates at bank were 1¼, but large lots could be had of some of the banks to-day at 1 ⅌ cent premium for currency. Buying ⅜@1 ⅌ cent. The tendency is mainly to lower figures, and should the case continue a decline of ⅛ in the selling price may be looked for before the close of the week.

NEW YORK MONEY MARKET.—The New York *World* of Saturday contains the following well digested remarks touching the state of financial matters:

The money market remains unchanged. There is a surplus of capital, above the wants of the market, seeking investment in satisfactory call loans, and short dated paper, or very choice endorsed paper, at longer dates. Single named paper is dealt in, cautiously, by capitalists; and the note brokers, who have been the chief purchasers this spring, and hypothecating it with the banks for call loans, are also restricted in their purchases. The banks, after this month, will begin to feel the heavy pressure on them for discounts by the regular business community. This coming fall trade promises to be the heaviest that New York city has ever experienced. The crops are immense, and, with the prospect of European demand, will be forwarded to the New York market without delay. This movement is in the true interests of the country, and the New York banks ought to be amply prepared to afford liberal accommodations to our own internal commerce. Unless the banks withdraw gradually, and before the legitimate business wants begin, the funds at present loaned on stocks and hypothecated notes, their funds will be wholly inadequate to move the crops to market, and grant discounts to our domestic trade. It is unfair, to those speculators in stocks and business paper, to delay calling in their present loans, until the full legitimate demands commence.

The sacrifices, which a sudden calling in of loans may cause, when there is, at the same time, an active business demand for money, may not only ruin some of the speculators in notes and stocks, but sweep off so much of their margin as to cause loss to the banks. During this month of July, when there is really little money wanted by business men, is the prudent time to call in these loans; of course, very gradually, and allowing the speculators as much latitude as possible for realizing on their stocks and hypothecated notes. The interests of all parties will be best consulted by this arrangement. A contrary policy, will at the first calling in of loans, providing it is to meet a business demand for money, send these speculative brokers rushing breathlessly round the street for money, exactly as they did last spring, sacrificing first-class notes at any price they could get in order to meet call loans, and causing a temporary and injurious, because *unnecessary*, derangement of the money market to take place.

The sound, legitimate trading community are the most injured by these sudden spasms in money. Call loans are the fruitful source from which they spring. We give the quotations for money:

Call loans on stock securities	5	@ 6	⅌ cent.

Prime endorsed bills under 90 days	5	@ 6	"
" four to six months	6½	@ 7	"

The quotations of Milwaukee Club in the New York report to-day are unchanged, $1,20@1,30; although the market was quoted 1c better in the A. M. despatch.

There was not enough done in our market to-day to indicate anything except extreme dullness. The farmers just now are too busy harvesting to send anything to market, and there is too little business doing in consequence, to give any importance to quotations. The few sales reported to-day were at decline of 4@5c, the foreign news published this morning having an unfavorable effect. The latest sales were at $1,08 for No. 1 spring delivered, and $1,12 for Extra club.

Nothing done in flour of any account.

Some small sales of Oats were made at 28@29c delivered, and of some prime old Rye at 60c. Several sales of wool were reported at 37 to 42c for ¼ to ¾ blood fleece.

SHIPMENTS OF WHEAT FROM RANDOLPH.—*Editors of the Sentinel:* A good deal has been said about the amount of wheat shipped at the different stations of the railroads leading into Milwaukee. From an examination of the books of the agent, we find there has been shipped from this Station since the 1st day of September last, two hundred and fifty-seven thousand two hundred and twenty-three bushels wheat, and seven thousand seven hundred and ninety six barrels flour. Reducing flour to wheat would make a total of two hundred and ninety-six thousand one hundred and ninety-three bushels wheat.

This we think is a little ahead of any other station on the line of the LaCrosse Road, and a fair amount of business for a place not yet three years old. The superior quality of the wheat from this section is well known to the dealers at the LaCrosse Depot.

The new crop promises to be the best ever raised here both in quantity and quality. Many farmers are confident of thirty bushels to the acre.

Yours, &c., RANDOLPH.

CHICAGO MARKET, JULY 16th.—Receipts of the articles named, at Chicago, yesterday, were as follows:

Flour, bbls	475
Wheat, bus	12,533
Corn, bus	98,605
Oats, bus	2,986
Barley, bus	1,400

In reference to the market the *Press & Tribune* says:

The corn market opened this morning quiet and steady, at Saturday's closing quotations; but under the dull news received from Liverpool and New York, it became unusually depressed, and prices fell 2c ⅌ bus. This depreciation in corn is attributable also, to a certain extent, to the upward tendency in freights. To-day rates advanced ½c ⅌ bus, and all the vessels offered were readily taken at the advance. The absence of quite a large fleet of grain-carrying vessels now engaged in the Lake Superior trade, and the probable heavy supply of spring grain in three or four weeks, as well as the amount of corn now in store—1,915,000 bus—all tend to the conclusion that, during the ensuing four months, freights will rule unusually high.—And it is this feeling which has lessened the speculative inquiry and disarranged the calculations of nearly all operators with regard to the prices of corn in August and September. Freights have so long ruled at a ruinously low point that speculators and shippers have paid but little regard to the probability of the carrying interest ever rallying above reasonable rates. The fact, however, is forcing itself upon the trade now, with all its consequences. The sales of corn to-day amounted to about 120,000 bus, at 42@43½c for No. 2 c. afloat; 41¾@43¼c for No. 1 in store; 40¾@41½ for No. 2, and 35@39½c for rejected—the market closing quiet at the inside figures. The receipts of corn since Saturday were 95,600 bus and the shipments 145,061 bus. The receipts for the week were about 680,000 bus, and the shipments 644,000 bus.

The demand for winter wheat to-day was quite active by shippers, and full prices were paid—closing, closing, however, very quiet. Spring wheat is in but limited supply, and owing to this fact the market was neglected and prices ruled a shade lower. Sales of all kinds amounted to about 24,000 bus, at $1,20 for No. 1 white on track; $1,11 for No. 2 white in store; $1,12@1,12½ for No. 1 red; $1,08@1,09 for No. 2 red; $1,06@1,08 for No. 2 spring; and 90@92c for rejected spring. The receipts of wheat to-day amounted to 12,533 bus—10,970 bus of which came by the Illinois Central Railroad, and were chiefly winter grades. The receipts of wheat last week were about 60,000 bus, and the shipments about 49,000 bus, leaving in store here 37,000 bus. The flour market is neglected, and the sales are mostly to the city trade. The stock on hand is only about 5,700 bus. The glowing accounts from the interior with regard to the new crop of oats, renders the market for that cereal very dull, and we note a further decline to-day of ½c—sales being made at 25c in store, and 25½c afloat. Rye 51c. New Barley continues to be received to a limited extent, but there is no demand for it in its present condition and the market is nominal. Highwines 18c. Mess pork is in good request at $18,25, but it is chiefly held at $18,50 @18,75. To-day 100 bbls were sold to the trade at the latter figure. Hides are dull. Wool very quiet, with limited sales at 45c for full blood, and 30c for three-quarter and dirty full-blood mixed. The supply of whitefish is better, but the market continues steady and firm at $3,50 for No. 1 whitefish, and $2,75 for No. 1 trout. Butter in good supply and steady—sales of good firkin being made to-day at 9½c. Beef Cattle are in good demand and firmer—sales of fair to extra being made at $3,25@3 ⅌ 100 lbs gross. Hogs in good demand at $5,25@5,50 gross. Sheep firm at $2,75@3,50 according to quality.

There was a good demand for freight room to-day, and an advance of ½c ⅌ bus took place in rates.—Eight sail vessels and one propeller were engaged at 7c for corn to Buffalo, and 10c to Oswego, or 18c to New York.

DR MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world, as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

RAILWAY MATTERS.

NEW YORK & ERIE RAILROAD.

It is understood in New York that the advertisement for the sale of the Erie road under the foreclosure suit of the Fifth mortgage, will appear in the course of ten days.

MILWAUKEE & HORICON RAILROAD.

LINDSEY WARD has been appointed Receiver of the Horicon Railroad. The appointment was made by Judge MILLER of the U. S. District Court, while in session at Madison. We understand that no particular changes are contemplated at present, among those holding salaried positions on the road.

ABOLITION OF THE CAR CONTRACT SYSTEM.

The Chicago *Times* learns that at a recent private meeting of representatives of western railroads, it was resolved by a unanimous vote, to abolish what is known as the "car contract" system, and that after the first of August next no freight contracts of this description will be made. It has been the custom of all railway companies east and west, to contract for transporting freight by the car loads at a special rate and lower than the tariff on the lowest classification. This custom afforded a margin for the support of fast freight companies, who, by obtaining first and second class goods—a preponderance of such goods—in quantities sufficient to load cars, realized the difference between first-class rates received from the shipper, and the special rate actually paid the railroads.

HALF-FARE EXCURSION TO NEW YORK VIA THE GRAND TRUNK.

The Cincinnati *Gazette* announces upon good authority that arrangements are being made by the Dayton & Michigan and Grand Trunk Railways for a half-fare excursion to New York during the stay of the *Great Eastern* at that port. The excursion is to take place about the 1st of August, so as to embrace in the attractions the Prince of Wales' visit to the Canadas, and the opening of Victoria Bridge. The *Gazette* adds:

The managers of the Dayton and Michigan Railroad have long had in contemplation an excursion over their road and the Grand Trunk to celebrate the completion and opening of these important roads, which connect, by the Cincinnati, Hamilton & Dayton, the Ohio river, and Cincinnati with the Atlantic Ocean.—The managers could not have selected a better time for the excursion, and we have no doubt but that the arrangement referred to by Mr. Hall, with the roads extending to New York, will be completed, and half-fare tickets will be made to New York, and thus afford the excursionists an opportunity of seeing the *Great Eastern* at a greatly reduced fare.

We presume the Detroit and Milwaukee Railway will also enter into the arrangement, and give our citizens an opportunity of joining the Cincinnati excursionists at Detroit.

NUMBER OF ENGINES USED BY TWELVE RAILROAD COMPANIES.

The following table, compiled from the latest returns, shows the number of engines in use by twelve of the prominent roads of the country:

Baltimore and Ohio	235
New York and Erie	219
Pennsylvania	213
New York Central	211
Grand Trunk	203
Philadelphia and Reading, coal road	149
Illinois Central	119
Michigan Central	98
Pittsburgh, Fort Wayne and Chicago	96
Michigan Southern	91
Great Western, Canada	87
Western, Massachusetts	72
Total	1,781

A YANKEE DODGE.

Since the courts in New York have decided that the usual conditions printed on the back of a free pass given generally by railroad officers, amounted to nothing, and did not exempt the company from liability for any damage to the person using a free ticket, the Hudson River Road has hit upon another device to avoid responsibility for the limbs and property of "dead-heads" traveling on their road. It consists simply of a blank agreement, to be signed by the holder of the ticket, releasing the company from all obligation for any damage that may ensue upon using the ticket, and waiving in advance all claims, in consideration of receiving the free ticket. If the holder signs his name on the back of the ticket, it amounts to a direct release to the company—though, as a matter of law, there is said to be still some doubt as to the validity of this new form or condition. It seems very queer why a railroad ought not to be just as responsible for injury to a free passenger, as well as to a paying passenger. The compliment is invariably tendered for some sort of a consideration, and it is no fairer to refuse to pay the holder for a broken leg, than one who paid in a different way.

LA CROSSE, TREMPELEAU, AND PRESCOTT RAILROAD.

Active steps are being taken to make a commencement on the grading of this road. The right of way has been secured from a point six miles east of La Crosse, on the Milwaukee and Minnesota road as far as Winona. A corps of engineers are on the line making the location of it. The company is fully organized, and preparations are being made to do at least half the grading on the line as far as Winona before winter. The surveys already made show a distance of 26½ miles from Winona to the junction with the La Crosse road, 20 miles of which lies on a level plain, and can be graded ready for the ties at a cost of from $300 to $500 per mile; the remaining 6½ miles is over the bottoms of the Trempeleau and Black rivers, is not heavy work, but requires some piling and bridging.—This road, when completed, will be the farthest road north on the river, and will be the principal outlet for the grain of two-thirds of the whole State of Minnesota, besides taking nearly all the winter travel and freight both ways.

It will be an important feeder of the Milwaukee and Minnesota Railroad, and will largely augment the trade between our city and the flourishing young State of Minnesota. Our Chicago neighbors begin to feel uneasy at the prospect of Milwaukee continuing to control the trade of Minnesota, and in view of this new railroad enterprise the *Times* makes the following frantic appeal to the business men of Chicago not to let Milwaukee steal a march on them:

It would be well for the business interest of Chicago to watch this movement, since, if it should get under the control of Milwaukee, the last opportunity Chicago would have for a term of years to get the control of the grain trade of Minnesota would be gone. On the other hand, could the Northwestern road control this arm, Chicago would have the key to Minnesota's storehouses of grain and produce, and could divert the trade to its own merchants. The cheapness of this new road, and the good prospect of business, will make its completion only a point of time, and the enterprise can't fail to be one of interest to the business men of Chicago.

If the merchants of Chicago have any spare cash, Milwaukee will certainly interpose no objection to their investing it in this enterprise. But if they labor under the misapprehension that by aiding the construction of this arm of the Milwaukee and Minnesota Railroad they will have the "key to Minnesota's storehouses of grain," they are greatly mistaken. The trade of Minnesota will continue in the future, as it does at the present time, to come to the city that affords the best and most accessible market for her wheat; and that city Minnesota has already discovered to her advantage to be Milwaukee. But we do not wish to discourage our Chicago neighbors, and we hope after subscribing liberally to the new project by which they propose to take the Pike's Peak trade away from St. Louis, they will turn their attention to the Trempeleau & Prescott Road. It is quite evident, however, that Chicago is going to be in hot water for some time to come, between St. Louis on the south and Milwaukee on the north, and may in the end, through her indiscreet greediness, lose the trade of both sections.—At any rate, it strikes us that she will find enough to do in repeling the encroachments of her Southern rival, without going so far out of her way as to compete with Milwaukee for trade, which, in the nature of things, Milwaukee will always control. If Chicago is wise she will confine her attention to the Southwest.—Milwaukee will take care of the Northwest.

RAILROAD EARNINGS.

The traffic receipts of the Grand Trunk Railway for the week ending June 30th, were $55,750 61—an increase of $14,494 06 over the corresponding week in 1859. The total traffic of the road for the two years ending on that date, was as follows:

Total traffic from 1st July, '59, to date	$2,916,138 10
do for same period last year	2,269,347 65½

The earnings of the Northern Railway of Canada, (Collingwood Line,) for the week ending July 7th, and thus far this year, will be seen by the following statement:

Mails and Sundries	90 63
Total receipts for week	$6,824 35

THE WELLAND RAILWAY ROUTE—QUICK WORK.

We have frequently had occasion to notice the dispatch with which grain has been shipped from the West to the seaboard by this new route. On Wednesday morning last the schooner *Neechonta*, with corn from Chicago, arrived at Port Colborne, on Lake Erie. Her cargo was passed over the Welland Railway, and reshipped at Port Dalhousie by the propeller *Dubuque*, and arrived in Oswego at noon on the following day, (Thursday) and at 4 o'clock P. M. it was on board of canal boats on its way to New York. Shippers in the West are patronizing this route extensively, as it is not only the most expeditious, but the grain is materially benefitted by being shipped over the Welland Road.—*Oswego Commercial Times, July 13.*
